Information Disclosure Statement

The information disclosure statement (IDS) submitted on 1/10/2002 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: claim 29, line 9 after "first client" please add – of the first mailbox--.

The following is an examiner's statement of reasons for allowance: generating a distinguishing identifier for the first message; sending at least a portion of the first message and the distinguishing identifier to the second mailbox using the second communication channel; responsive to an action on the first message on the first client, creating a second message including the distinguishing identifier and a description of

the action; sending the second message to the second mailbox using the second communication channel; selectably updating the unified view of the first message on the second client using either the high cost communication channel or the low cost communication channel (1,8, 19-28).

In addition, the prior art fails to teach determining whether a first message has been assigned an identifier; if the first message has not been assigned an identifier, then: generating a first identifier that is unique relative to other identifiers assigned to the message by the first client of the first mailbox and a second client of the second mailbox, and sending at least a portion of the first message to the second mailbox; detecting an action taken on the first message by the first client; and in response to detect the action, transmitting a second message to the second client that includes the first identifier and a description of the action (29 and 37-44).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
